Nautilus Entertainment Design (NED) is seeking an Associate Lighting Designer to work in our San Diego, CA office. We design lighting for live shows, television, architecture, and themed entertainment for projects worldwide.

POSITION REQUIRMENTS & SKILL-SET
- Bachelor's or Master's degree in theatrical lighting or related field
- Excellent communication, organizational, and interpersonal skills are required
- Multi-task while maintaining attention to detail
- Solid AutoCAD skills (NED is a 100% Acad/BricsCad environment)
- Solid MS Office skills including the use of pivot tables in Excel
- Proficiency with AGI32 or other photometric software a plus
- Proficiency with GrandMA or similar programming a plus
- Excellent skills in written and spoken communications, including emails and published reports
- Team player (building team and design team and owner's team)
- Problem solving ability
- Self-starter
- Willingness to travel

POSITION RESPONSIBILITIES
- Draft light plots for shows, exhibits, and architectural projects.
- Develop supporting paperwork including equipment lists, fixture schedules, photometric evaluations, etc.
- Support lighting designers onsite
-

If you believe you have the qualifications as outlined above, please contact Latisha Jones at ljones@n-e-d.com with your resume.
